

OH&S Management Systems Auditor

Conversion Course #A17651

Certified by IRCA

Duration: 3 Days

Course description

This 3 days course is designed for experienced management systems auditors seeking additional skills in auditing OH&S management systems to the OHSAS 18001 standard. It gives delegates- who successfully completed other lead auditor training previously- a broad understanding of the OHSAS 18001 standard and occupational health and safety (OH&S) management system principles. The course enables participants to develop the principles and techniques in conducting safety management system audits. Successful implementation of the course meets part of the formal training requirements for those seeking registration under the IRCA Auditor Registration Scheme.

What you will learn?

By the end of this course you will be able to:

1. Understand the OHSAS 18001 Standard.
2. Understand the purpose and benefits of the OH&S management system.
3. Understand the essential elements for the operation and documentation of an OH&S management system.
4. Risk & Hazard assessment principles and approaches.
5. Identify the audit requirements of OHSAS 18001.
6. Plan and conduct an audit in line relevant to OH&S audit criteria.
7. Write the nonconformity statements and also, the audit reports.
8. Identify the Follow-up activities required.

Requirements for Successful Completion

To succeed this course, delegates must:

- Succeed the continual assessment throughout the 3 days course duration and achieve success rate of the written examination.
