

# Food Safety Management Systems

Auditor/Lead Auditor Course # A17410

Certified by IRCA

Duration: 5 Days

## Course Description

This course enables delegates to effectively under-take Food Safety Management Systems audits, by clearly understanding the requirements of ISO 22000 international standard, other associated standards and HACCP principles. This course will also give you the skills and techniques to measure the effectiveness of your food safety management system. Successful implementation of the course meets part of the formal training requirements for those seeking registration under the IRCA Auditor Registration Scheme.

## What you will learn?

1. Understand food Safety management system principles, processes and techniques used for assessment and management of food safety hazards.
2. Determine contents & requirements of ISO 22000: 2005 and inter-relationships with other relevant international standards and food industry practices and guides.
3. Identify and maintain legislative and regulatory requirements.
4. Plan, conduct, report & follow-up food safety management systems audits.

## Certificate

- Delegates shall be awarded a certificate of successful completion for passing the written examination and the continual assessment.
- Non Successful delegates shall receive a certificate of attendance.

## Language
