

Arab Academy for Science and Technology and Maritime Transport
College of Engineering
Electrical Power and Computer Control

An Islanding Detection Scheme Based On Fast Angle Estimation Technique for Inverter Based Distributed Generation

M.Sc. thesis

By:

Eng. Mahmoud Osama M. Al-Wadie

A thesis submitted to the Faculty of Engineering – Arab Academy for Science and Technology and Maritime Transport in partial fulfillment of the requirements for the M.Sc. degree in Electrical Power and Computer Control Engineering

Supervised by:

Prof Dr. Yasser Galal Mostafa

Electrical Power and Computer Control
Faculty of Engineering,
Arab Academy for Science and Technology and Maritime Transport

Dr. Mostafa Ibrahim Mohamed Marei

Electric Power and Machine Department
Faculty of Engineering, Ain Shams University

Cairo 2011
