Dear Potential Students,

It is our great pleasure to announce that our preparations for the new intake in the Master of Quality Management program are concluded and applications will be ready starting from mid September 2012.

The new design of our Master of Science in Quality Management aims to provide quality, production, marketing, sales and maintenance professionals with the opportunity to develop their career and have the chance to get better employment opportunities in Egypt, Arab countries and abroad.

Graduates will be able to build cultural awareness among their organizations about the importance of quality and excellence and exploit the appropriate techniques and tools to analyze business processes, identify root causes of problems and propose appropriate list of solutions to improve operations of their organizations. Thus improving their organizational performance and developing competitive advantage.

**The Productivity & Quality Institute at Arab Academy for Science & Technology
announce the beginning of its new intake September 2012**

**Master of Science in Quality Management
Diploma in Quality Management**

The application deadline is end of September 2012
