

OH&S Management Systems
Auditor/Lead Auditor Course # A17442
Certified by IRCA
Duration: 5 Days

Course description

This course adapts the accelerated learning approach. It gives students a broad understanding of the OHSAS 18001:2007 standard and occupational health and safety (OH&S) management system principles. The course enables participants to acquire the principles and techniques in conducting safety management system audits. Following the implementation of an OH&S management system, effective auditing of business processes and practices helps to identify areas of conformity as well as areas requiring improvement. Delegates will develop effective auditing skills and knowledge of current best practice to aid continual improvement through focussed OH&S audits. Successful implementation of the course meets part of the formal training requirements for individuals seeking registration under the IRCA Auditor Registration Scheme.

What you will learn?

By the end of this course you will be able to:

- 1-Understand the introduction to OHSAS 18001.
