

Environmental Management Systems

Auditor/Lead Auditor Course # A17373

Certified by IRCA

Duration: 5 Days

Course description

This course adapts the accelerated learning approach. It provides delegates with an in-depth knowledge of the ISO 14000 series of standards. It develops delegates' understanding of the purpose and requirements of ISO 14001: 2004 and the skills required to effectively plan, conduct and report effective environmental management system (EMS) audits.

Successful implementation of the course meets part of the formal training requirements for individuals seeking registration under the IRCA Auditor Registration Scheme.

What you will learn?

By the end of this course you will be able to:

- 1-Understand the requirements & business benefits of an EMS.
- 2-Understand the purpose and requirements of ISO 14000: 2004 series of standards.
- 3-Determine environmental aspects and impacts.
- 4-Implement and manage EMS audit programmes covering first, second, and third party audits.
- 5-Plan, conduct, report and follow-up effective EMS audits in accordance with ISO 19011 :2002 guidelines.

Certificate

Certificate of success will be awarded on passing the written examination and the continual assessment
