## **TEACHING SKILLS & DEVELOPMENTS**

- In the UAE University – College of Business and Economics, I was the first and only Banking & Finance faculty member to Design, develop, deliver and examine the ‘Financial Management’ using Excel approach delivered at the computer lab. Afterward, other courses have been converted into laptop teaching such as Investments Management, Portfolio Management and International Financial Management.
- In the University of Dubai, I was teaching all finance courses in the computer lab.

- In Misr International University, I continued teaching most finance courses in the computer lab. I introduced further development that certain finance courses are delivered in a practical orientation. These courses are Banking Management, Investment and Portfolio Management, Finance Theory, and Entrepreneurial Finance. The development replaces the final exam with a real life project being considered as an application to the theoretical foundation of the course. The course is assessed by the lecturer and an external examiner from the industry (financial institutions).
