Course Description

Course Outlines:

- Introduction: receipt/delivery operations and personnel
- Preparation and planning for outbound container delivery by road
- Supervision and control of outbound container delivery by road
- Preparation and planning for inbound container collection by road
- Supervision and control of inbound container collection by road
- Supervision and control of container receipt/delivery by rail
- Supervision and control of container receipt/delivery by inland waterway transport
- Shift completion and handover
- General responsibilities of receipt/delivery supervisors.

Course Objectives:

- This Unit is designed:
 1. To explain the systems by which the container terminal receipt/delivery operation is supervised and controlled.
 2. To describe the procedures by which the receipt and delivery of containers travelling by road, rail and inland waterway transport are planned and prepared.
 3. To describe the procedures followed in controlling and supervising the delivery and collection of outbound and inbound containers by road, rail and inland waterway transport.
 4. To outline the procedures for handing over supervisory responsibilities at the end of a shift.
 5. To review the general responsibilities of the supervisor in receipt/delivery operations.
 6. To improve the quality of supervision of the receipt/delivery operation and to provide the knowledge and skills for a critical review of current supervisory procedures and mechanisms.
