Course Description

Course Outlines:

- Introduction and safety- general – Abandon ship – survival craft and rescue boat- Launching arrangements- Evacuation and recovery of survival craft and rescue boats- Actions to take when clear of the rig.
- Lifeboat engine and accessories – Rescue boat outboard engines- Handling survival craft and rescue boats in rough weather – actions to take when aboard a survival craft – Methods of helicopter rescue.
- Hypothermia – Radio equipments – First aid

Course Objectives:

The aims of this course are to provide the training for candidates to launch and take charge of a survival craft or rescue boat in emergency situations, in accordance with Section A-VI/2 of the STCW Code.

Learning outcomes:

This syllabus covers the requirements of the 1995 STCW Convention Chapter VI, Section A- VI/2, Table A-VI/2-1. On meeting the minimum standard of competence in survival craft and rescue boats other than fast rescue boats, a trainee will be competent to operate life-saving appliances and take charge of survival craft or rescue boat during or after launch. They will also be able to operate a survival craft engine and manage survivors and survival crafts after abandoning ship. Trainees will know the correct use of all locating devices, including communication and signaling apparatus and pyrotechnics, how to apply first aid to survivors and the actions to take to preserve the lives of those in their charge.

Course includes: Theoretical fire training module Laboratory Workshop
 survival training pool sea site visit.

Course Prerequisites:

Seafarers I must have completed the four basic courses and have at least 6 months sea service on board ship. They also certified by a doctor to be in good health.

Who should attend:

Seafarers employed or engaged in any safety capacity on board ship.
